Lasso –
Workstation Control

Acendex knows you can't throw away money on ineffective workstation recovery solutions

AcendexAssure Lasso, the world's fastest continuous backup software, enables near-instant recovery from workstation or laptop failure. This means that you spend less money, use less storage and—when a workstation fails or a laptop is lost or stolen—your staff goes right on taking care of customers.

AcendexAssure Lasso fully integrates into your existing Windows environment, enabling very fast backup and restore of Windows workstations and laptops in a single, low cost, managed solution. Built-in deduplication allows AcendexAssure Lasso to store your backed up information using 80% less storage space than traditional backup solutions. AcendexAssure Lasso protects any Windows-based workstation or laptop that's Windows XP or higher.

AcendexAssure Lasso enables you to:
Continue working when a machine fails

- Near continuous device availability
- 24/7 monitoring
- Alerts and pre-failure indicators
- 5 minute recovery time

Acendex Assure™

DATA LASSO

Spend Less Money

- No high startup costs
- No equipment to purchase and maintain
- No software to acquire and manage
- No professional service fees

Improve Customer Service

- Offer a continuity of service guarantee
- Stronger consumer confidence
- Protect your brand and reputation

Benefit from preventative maintenance

- Automated testing of backup copies
- Optional "live" recovery testing

Have a non-Invasive solution

- Works alongside your existing systems
- Does not interfere with existing support relationships
- No prerequisites

Acendex Assure™

DATA LASSO

AcendexAssure: Workstation Control for your Enterprise

AcendexAssure Lasso provides:

- Near continuous application-aware backups of entire workstations—including the operating system and system state
- Up to five times reduction in storage space requirements
- Alerts and pre-failure indicators
- Extremely fast processing that eliminates user complaints of "slowness"
- Protection of open files while they are in use
- Near-Instant recovery—typically five minutes for an entire workstation
- Application-item recovery and file-level recovery

How is AcendexAssure Lasso different?

- AcendexAssure Lasso enables you to restore entire workstations from backup—with full user access—in just seconds, without waiting to extract the full backup or waiting for it to completely restore to the original machine.
- Recovery Verification technology automatically tests and verifies data, ensuring with 100% certainty that your information is recovered and the integrity of your files maintained.
