

A thick, orange, braided rope is tied into a lasso shape, framing the text "Data Lasso". The rope has a white outline and a knot at the bottom right. The background is a dark red field with faint, diagonal lines of binary code (0s and 1s).

Data Lasso

Lasso –Workstation Control

- No Hardware or Software Purchase
- Protects All Workstation Data
- Near-Instant Recovery
- Completely Managed Solution

Cleveland • OH, U.S.A. • 44122

At ACENDEX, we know you can't spend money on Workstation Recovery.

ACENDEXASSURE™ Lasso is the world's fastest workstation continuous backup software, enabling near-instant recovery from workstation or laptop failure.

That means you spend less money, you use less storage and when a workstation fails or a laptop is lost or stolen, your staff goes right on taking care of customers.

ACENDEXASSURE™ Lasso fully integrates into your existing Windows environment enabling very fast backup *and* restore of Windows workstations, *or laptops* in a single, low cost, managed solution.

Built-in *deduplication* allows ACENDEXASSURE™ Lasso to store your backed up information using 80% less storage space compared to traditional backup solutions.

ACENDEXASSURE™ Lasso protects any type of Windows-based workstation, laptop or PC that's WindowsXP or better.

Something you can do now that you were not able to do before:

Continue Working when a Machine Fails

- Near-Continuous device availability
- 24 X 7 monitoring available
- Alerts and pre-failure indicators
- 5-Minute Recovery Time Objective

Spend Less Money

- No high startup costs
- No equipment to purchase and maintain
- No software to acquire and manage
- No professional service fees

Improve Customer Service

- Offer a Continuity of Service guarantee
- Improve consumer confidence
- Protect your brand and reputation

Preventative Maintenance

- Automated testing of backup copies
- Optional "live" recovery testing

Non-Invasive

- Works alongside your existing systems
- Does not interfere with any existing support relationships
- No prerequisites

Assure: Workstation Control for your Enterprise

ACENDEXASSURE™ Lasso provides:

- Near continuous application-aware backups of entire workstations—including the operating system and system state
- Up to five times reduction in storage space requirements
- Extremely fast processing eliminates user complaints of “slowness”
- Protects open files while they are in use
- Near-Instant recovery – 5 minutes typical for an entire workstation
- Application-item recovery and file-level recovery

How is ACENDEXASSURE™ Lasso different?

- With ACENDEXASSURE™ Lasso you can restore entire workstations from backup in just seconds with full user access! It is possible to resume the use of the workstation directly from the backup file without waiting to extract the full backup or waiting for it to completely restore to the original machine.
- Recovery Verification technology helps ensure 100% reliability of the recovery of your backup. Backup data is tested and verified automatically to verify backup file integrity and ensure the recoverability of your information.
